

INTRODUCING **CRASHOUT VET**

THE MOST RELENTLESS MEMECOIN

\$CRASHVET WHITEPAPER V3.1

Forged in Duty. Sustained by Brotherhood. Powered by Blockchain.

INTRODUCTION

CrashOut Vet (\$CRASHVET) is not just a meme token--it's a decentralized resistance movement founded by a 100% disabled U.S. Army veteran who lost his fully paid-off home to Michigan's broken property tax system. Born from betrayal, \$CRASHVET is a public utility, digital protest, and blockchain solution.

As of June 7, 2025, \$CRASHVET is in active development, not fully funded, and committed to a long-term vision. We're building a robust, transparent, and decentralized support system for U.S. service members, both active duty and veterans. Our mission extends beyond financial relief--it's about mental health, foreclosure protection, civilian transition, and restoring purpose and dignity.

We welcome community feedback to shape our journey--email us at crashoutvet@gmail.com or join our Telegram to contribute. Funding efforts are underway via grants, partnerships, and community support to accelerate our timeline.

\$CRASHVET combines Web3 innovation with military values to build a financial safe haven for those who served, delivering real-world impact and on-chain action.

MISSION STATEMENT

\$CRASHVET was created to address systemic failures facing U.S. veterans and active-duty military. From home foreclosures and PTSD to lack of crypto education and inadequate transitional support, we aim to build an ecosystem that protects, uplifts, and empowers. We are veteran-led and supported by a blockchain architecture built to last.

We don't promise hype. We promise mission execution.

THE PROBLEM

Thousands of disabled veterans lose their homes each year--despite qualifying for tax exemptions.

Why?

- Miscommunication between agencies
- Bureaucratic errors and outdated systems

- A lack of clear, accessible advocacy
- Veterans are often isolated, physically disabled, or overwhelmed by paperwork
- Most cannot afford legal assistance

The system fails those who defended it. \$CRASHVET exists to reverse that.

OUR SOLUTION

CrashOut Vet was launched to:

- Raise awareness through storytelling, memes, and viral media
- Build a Legal Defense & Emergency Aid Fund for veterans
- Push for clear, automatic enforcement of state & federal exemptions
- Provide a resource hub for applying and maintaining veteran benefits
- Build a network of advocates, lawyers, and policy advisors
- Use the \$CRASHVET token as a symbol of protest and a funding tool
- Deploy Overwatch AI to guide, assist, and empower users 24/7
- Launch utility airdrops in response to confirmed abuse under UCMJ or bad actor retaliation

GLOBAL EXPANSION

As of June 2025, \$CRASHVET has launched a Global Command initiative to extend its mission to international veterans and military supporters.

Initial outreach includes:

- South Africa
- Burkina Faso
- Russia
- Saudi Arabia
- Asia-Pacific

We are actively onboarding multilingual moderators and administrators from these regions who are verified token holders. Monthly performance-based airdrops are in development for contributors.

This expansion ensures international solidarity, enables wider military-based community support, and signals to investors that \$CRASHVET is scaling with purpose.

TECHNICAL PARTNER

MLive Digital Solutions LLC

Entity Type: Limited Liability Company (LLC)

Headquarters: Detroit, Michigan

SAM.gov Registered

CAGE Code: Active

EIN: Issued by IRS

Contact: mlivedigitalsolutionsllc@gmail.com

Capabilities:

- Blockchain solutions for underserved communities
- Digital wallet systems and veteran identity management
- Smart contracts for aid distribution and benefits
- Cross-platform tools for mental health and financial stability

Federal Alignment:

- Open to VA, DoD, and nonprofit partnerships
- Positioned for grants, federal contracts, and pilot programs
- Past projects and verification docs to be shared by Q4 2025

TOKENOMICS & COMMITMENT

Token Name: CrashOut Vet (\$CRASHVET)

Total Supply: [Actual Total Supply TBD - adjust from original]

Launch Platform: Pump.fun (Solana)

Bonded: No

Initial Circulating Supply: [Live supply as of date]

Allocations:

- Command Team (purchased, locked for 12 months, vesting terms by Q3 2025)
- Legal Defense & Emergency Relief Fund
- Staking Pool

- Community & Raid Rewards
- Circulating Supply / Liquidity

Staking Pool:

Platform: Smithii

Link: <https://stake.smithii.io/crashvet>

APR: 60%

Lock Time: 30 days

Pool Size: 10,000,000 tokens

CORE UTILITIES

- Staking Pool - "TDY Duty"
- Blockchain Brigades (platoon-level raids, ranks, gear)
- Overwatch AI 24/7 assistant for:
 - Staking help
 - Onboarding
 - Airdrop verification
 - Mission intake
 - Language-specific delegation
 - Expansion tracking
 - Mental health & legal aid nav (Phase 2)

STRATEGIC ROADMAP (Q2-Q4 2025)

- DAO & Governance Whitepaper
- Community proposal voting via Overwatch
- Multi-sig wallets
- NFT Pass Launch
- Expanded Brigades, Tiered Staking, DAO Roles
- On-chain Legal Fund Tracking
- AI Moderation Enhancements

- KYC/AML Policy Updates
- Public Wallet Disclosures
- Quarterly Reports

ORGANIZATIONAL STRUCTURE

- CrashOut Vet Command Team
- MLive Digital Solutions (tech partner)
- Global Moderators and DAO Council (Q3 2025)
